1994	67.5	29	83					-7.83%	1.31%	8.1%

Equity Composite was created on January 1, 1987 and contains fully discretionary Robert Bender & Associates equity accounts. For comparison purposes the equity composite is measured against the S&P500 Index. The minimum account size for this composite is \$100,000. The account minimum has been in effect for new account inclusion since inception. Prior to January 1, 2006, accounts that fell below the minimum size due to market attrition were not removed.

Robert Bender & Associates claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Robert Bender & Associates has been independently verified for the period January 1, 1996 through June 30, 2014.

Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. The Equity composite has been examined for the period January 1, 1996 through June 30, 2014. The verification and performance examination reports are available upon request.

Robert Bender & Associates is an equity investment manager established in 1973 that invests in equities primarily from securities that trade in the U.S. financial markets. Robert Bender & Associates is a registered investment advisor and is defined as an independent investment management firm that is not affiliated with any parent organization. List of composite descriptions is available upon request. No alteration of composites as presented here has occurred because of changes in personnel.

Results are based on full discretionary accounts under management (including those accounts no longer with the firm) that are managed according to the Equity Strategy. Performance results are presented net of actual management fees, bundled fees (where applicable and as defined below), trading commissions and include the reinvestment of income. This composite includes non-fee paying accounts. The percentage of non-fee payment accounts is less than 14% in any stated year. Returns are computed using a time-weighted total rate of return. Past performance is not indicative of future results. "Bundled fees" are charged by the custodian and are based on a percentage of assets under management. Expenses in a bundled fee include, but are not limited to: custody, trading, investment advice, quarterly and annual statements and performance reporting.

The dispersion of annual returns presented is measured by the asset-weighted standard deviation across time-weighted portfolio returns represented within the composite for the full year.

Policies for valuing portfolios, calculating performance, and preparing compliance presentations are available upon request.

The U.S. Dollar is the currency used to express performance. This composite includes accounts which pay Robert Bender & Associates management fees typically ranging from .75% to 2.0%. Certain accounts may pay in excess of 2.0%. The current fee schedule for this composite is: 1.5% on assets of \$100,000 to \$5,000,000; 1.00% on assets greater than \$5,000,000.
